Dear Friend of District 99,

We are developing a Master Facility Plan to determine how our school buildings need to evolve to prepare students today –and tomorrow. Technology and educational programs continue to change, which impacts teaching and learning. We want to ensure that our buildings (North High, which opened in 1928, and South High, which opened in 1964) contribute to student success.

With the input of our Board of Education, staff, and community, we identified several priorities for changes and modernization. Now we are inviting you to attend one of two meetings to learn more and share your thoughts. The feedback we gather will be used to shape the next phase of our Master Facility Plan. Each meeting will include a building tour, a presentation, and opportunities to ask questions. Whether you visit our schools often—or if you haven't been inside our buildings in a long time (or ever!) we hope you'll participate.

Thank you for your ongoing support of our schools. It is this strong community support that allows our tradition of excellence in academics, athletics, performing arts, and many other activities to continue. I hope to see you soon.

A handwritten signature in black ink that reads 'Hank Thiele'.

Sincerely,  
Dr. Hank Thiele  
District 99 Superintendent
