Girls And Math Summer Camp

July 10 - 14th, 2017

About the Workshop: This week of mathematics activities is designed to provide middle school girls with a variety of engaging mathematical experiences focused on extending their understanding and knowledge in mathematics. The program allows talented and enthusiastic students to explore several aspects of mathematics not covered by the traditional school curriculum. Potential topics include: paper folding, game theory, modeling, probability, estimation and number theory.

Farewell celebration with family on Friday, July 14 from 1pm - 2pm

Instructors: Mary McMahon, Katherine Heller and Katie Courtney

Tuition: \$195 (includes t-shirt)

Time: 9am - 1pm

Age: 11 - 14 (enrolled in grades 6-8 for the 2016/2017)
