

# Parent Workshop

## Facilitated IEPs

District 58 invites all parents of students with IEPs or those who are participating in the special education evaluation process, to join the Downers Grove Grade School District 58 Special Services team and Key2Ed for a Facilitated IEP training. It will be held on October 11 from 7:00-8:30 p.m. This virtual workshop, geared specifically for families, will outline the new process District 58 will use during IEP meetings starting later this fall, called IEP Meeting Facilitation. The presentation will explain the process and its benefits and help parents prepare for these important student meetings. The goal of the IEP Meeting Facilitation process is to provide clarity to team roles, ensure that the meeting stays focused on the needs of students, is productive and efficient, and remains collaborative, all the while ensuring the process is compliant with applicable laws. The workshop will also help parents build skills to participate in more effective and efficient communications among all team members.
